## WIND FARM

### Welcome to the December newsletter for Boco Rock Wind Farm.

**It's been a big year for Boco Rock Wind Farm! Earlier this year, we announced that Tilt Renewables entered into a binding agreement to acquire Boco Rock Wind Farm and take over the planning and development of the proposed Stage 2 expansion.**

Tilt Renewables has now assumed full operational control of Boco Rock Wind Farm, located 10km south west of Nimmitabel and 30km north of Bombala in NSW. With this acquisition, we now operate 1.9GW of renewable energy across Australia and continue our strong presence in NSW.

Over the past year, the 67 turbines at the site have delivered more than 430 GWh of clean energy into the grid. That's enough to power just over 75,000 average Australian homes, avoiding more than 280,000 tonnes of CO<sub>2</sub> equivalent to taking 119,000 cars off the road.

From late spring through early summer, performance has been particularly strong. Weekly generation has averaged around 9,000 MWh, with multiple weeks exceeding 10,000 MWh.

If you don't have email but would still like to receive the newsletter, please call us on 1800 938 458.

### What's happening on site?

We've been working hard to ensure a seamless transfer of operational responsibility, integrating the wind farm into our processes, systems, and governance framework. Key activities on site and across the community this year included:

- Asset Management and maintenance completed six-monthly Balance of Plant (BOP) maintenance, including thermographic inspections across electrical infrastructure, civil maintenance works on access tracks and drainage, and ongoing turbine servicing and condition monitoring.
- Internal Health, Safety, and Environment (HSE) audits to strengthen our operational oversight, benchmark performance, and identify improvement opportunities.
- Community Consultative Committee meeting in June.

## Benefit Sharing

In partnership with Snowy-Monaro Regional Council, the Boco Rock Wind Farm Community Enhancement Fund supported over \$280,000 worth of community initiatives in the Snowy Monaro Local Government Area. For more information on the Boco Rock Wind Farm Community Enhancement Fund, please visit the [Snowy Monaro Regional Council](#) website.

## Boco Rock Wind Farm Stage 2

Following the acquisition of BRWF, we are in the early stages of progressing the development of Stage 2.

If you have any questions regarding Boco Rock Wind Farm Stage 2, email us at [BocoRockWindFarm@tiltrenewables.com](mailto:BocoRockWindFarm@tiltrenewables.com) or call 1800 WE TILT (938 458) to speak to a member of the team.

## Tilting towards the future.

*We are invested in making that happen - for our investors, communities and everyone who works with us.*

*Like our values say: we are people powered; we get things done; and, above all, we lead. Join us as we drive the transition to renewables.*

## Questions?

If you have any questions or enquiries regarding Boco Rock Wind Farm, call the number below to speak to a member of the team.
