

Waddi

A green icon representing a wind turbine or wind farm, consisting of three curved blades or segments.

WIND FARM

The Waddi Wind Farm would help reduce Western Australia's carbon footprint by generating enough clean energy to power more than 68,000 homes per year.

We are preparing to start construction of the Waddi Wind Farm soon. To find out more and sign up for updates please **visit www.waddiwindfarm.com.au**

For any questions or feedback please contact the project team via **1800 WE TILT** (938 458) or **waddiwindfarm@tiltrenewables.com**

PROJECT SNAPSHOT

Location: 15km north-west of Dandaragan

Number of turbines: 18

Blade tip height: 220m
