

# Waddi Wind Farm

## CONSTRUCTION UPDATE

**Waddi Wind Farm will deliver 108 MW of renewable energy, enough to power 68,000 homes. Construction of the project is now underway, bringing employment and broader benefits to the region.**

Since mobilising on-site in February, our team has made significant progress.

Our construction workforce is now working on a rotating roster between 7am and 7pm, Monday to Sunday.

There are approximately 50-75 workers and 30-40 vehicles on-site daily.

### Construction highlights

- 5 turbine anchor cages and 2 turbine reinforcement cages (pictured in Figure 1) are installed
- 50% of concrete pours for turbine blindings are complete
- Clearing associated with access tracks is complete
- Civil works are continuing on the substation bench in preparation for Western Power works

### Upcoming impacts

No significant impacts are expected in the next fortnight.

### Sign up to SMS updates

You can opt-in by scanning the QR code or visiting the project webpage to complete the online form. Alternatively, email or call us and we'll sign you up.
