

October 2026 #9

Waddi Wind Farm

CONSTRUCTION UPDATE

Waddi Wind Farm will deliver 108 MW of renewable energy, enough to power 68,000 homes. Construction of the project is now underway, bringing employment and broader benefits to the region.

Upgrade works have started on Mullering Road and are expected to finish in mid-November 2026.

The works are being undertaken by the Shire of Dandaragan.

Mullering Road will remain open with traffic management in place. Please follow all signage and take care when travelling through the area.

Works are progressing well at Waddi Wind Farm. Construction highlights include:

- **All 18** anchor cages have been installed in turbine foundations
- **16** of **18** turbine foundations have had concrete poured
- **6** of **18** turbine foundations have been backfilled
- **All 3** new meteorological masts have been installed
- Western Power has started pole preparation works

Upcoming impacts

Locals may notice increased lighting at night during concrete pours.
